

Advanced wound care. A stronger practice.

Albacete MedDev is a medical device distribution and practice operations partner for specialty and wound care practices. We bring products, documentation, compliance, and patient tracking into one conversation, so your team can focus on the patient.

Documentation & Compliance

Treatment Tracking Dashboards

Conservative Wound Care

Advanced Wound Care

01 • CONSULTING

Documentation & Compliance Consultations

Chart-level review of how your practice documents, codes, and bills wound care, measured against payer and LCD requirements.

- ◆ Documentation standards & audit-readiness chart reviews
- ◆ CPT / HCPCS coding strategy by product and payer
- ◆ Denial root-cause analysis with remediation plans
- ◆ Medicare, Medicaid & commercial coverage review
- ◆ Revenue cycle analysis and staff workflow training

02 • SOFTWARE

Patient Treatment Tracking Dashboards

Provider portal and StrataMetric AI Wound Scan: every patient, wound, and application visible in one place.

- ◆ Patient & wound tracking with healing trajectories
- ◆ 4-second iPhone LiDAR scan: area, depth, volume
- ◆ Auto-generated notes with sign-and-lock
- ◆ Claims-documentation compliance checks
- ◆ Graft inventory with serial, lot & UDI capture

03 • STANDARD OF CARE

Conservative Wound Care

First-line products and supplies that support standard-of-care protocols in the clinic and continue at home.

- ◆ Collagen dressings, powders & care kits
- ◆ Hydrocolloid dressings and sterile saline cleansing
- ◆ Graduated 20–30 mmHg compression therapy
- ◆ Facility medical-supply sourcing
- ◆ Patient & caregiver supply through Ovena Health

04 • ADVANCED MODALITIES

Advanced Wound Care Solutions

Options for wounds that stall under conservative care, each presented with its evidence, labeled use, and reimbursement considerations.

- ◆ Placental membranes & skin substitutes (CAMPs)
- ◆ Collagen, ECM & synthetic wound matrices
- ◆ Ultrasound debridement, MIST therapy & NPWT
- ◆ Autologous point-of-care blood-clot therapy
- ◆ Surgical allograft program for the OR

20+ yrs

wound care practice experience
